

Uncle Sam's Indian Wards

WHAT THE GOVERNMENT IS DOING TO MAKE FIRST-CLASS MEN AND WOMEN OF THE SONS AND DAUGHTERS OF REAL RED MEN—SOME EXCELLENT RESULTS

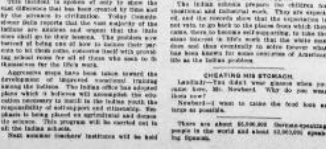

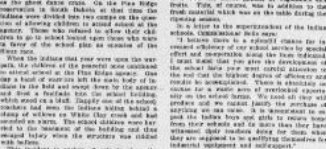

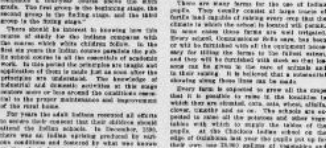

BY EDWARD H. CLARK.

A FEW YEARS AGO, when the government was first taking up the question of the Indian wards, it was a matter of some controversy. There were those who felt that the government was not doing enough for the Indian wards, and there were those who felt that the government was doing too much. But now, after a few years, the results are so excellent that the government is taking up the question of the Indian wards again.

There is no doubt that the government is doing a great deal for the Indian wards. It is giving them the best of education, and it is giving them the best of health care. It is giving them the best of everything. And the results are so excellent that the government is taking up the question of the Indian wards again.

THE INDIAN WARD

The Indian Ward.

The Indian ward is a very important part of the government's work. It is a place where the Indian children are sent to live, and it is a place where they are given the best of education and health care.
